After Graduation:

My goal after graduation is to gain experience through bridal design, and create designs that show the beauty of a bride to be, giving women confidence on their biggest day.

Ideation:

Through design and illustration classes, I am starting to create ideas and designs that pertain to my idea of bridal. There are pages upon pages of sketchbook mood boards that go strongly with my future designs.

Through patternmaking and testing I am able to learn and understand more about what it is I will be creating in the near future.

Pattern Duplication Project

This project consists of picking a pattern that exists, and duplicating it to show knowledge in patternmaking.

Project is in progress: Before final design, there is a mock up needed to figure out if there are any design flaws. There are also flat drawings that need to be designed in order to be able to see the seams and closures needed in the design.

Here is the concept of the pattern I will be making:

The turn in date for this project will be: Saturday, December 10, 2022.
